

Travel Memory

Directions:

Play the Travel Memory Game by yourself or with friends! Start by looking at the pictures of items below for one minute. Then take the picture away so you can't see it. Give yourself two minutes to draw as many items as you can remember. When the time is up, compare your drawings to the original picture. Add one point for each item you remembered. Subtract two points for any item you drew that isn't on this page. Try to improve your own score, or see who remembers more, you or your friends!
